The Crime Analyst Association Model

International Association of Crime Analysts (IACA)

- 501(c)3
- Over 6,000 members in 80 nations

Multiple state/regional associations recognized by the IACA

- Independently governed

Various Membership Models

Most include group/agency discounts

IACA (\$5-\$25 per year)

- Current employees of law enforcement or criminal justice agencies
- Educators working in the fields of criminal justice or criminology
- Students and other individuals seeking careers in crime analysis
- Private-sector employees who provide products and services related to crime analysis.

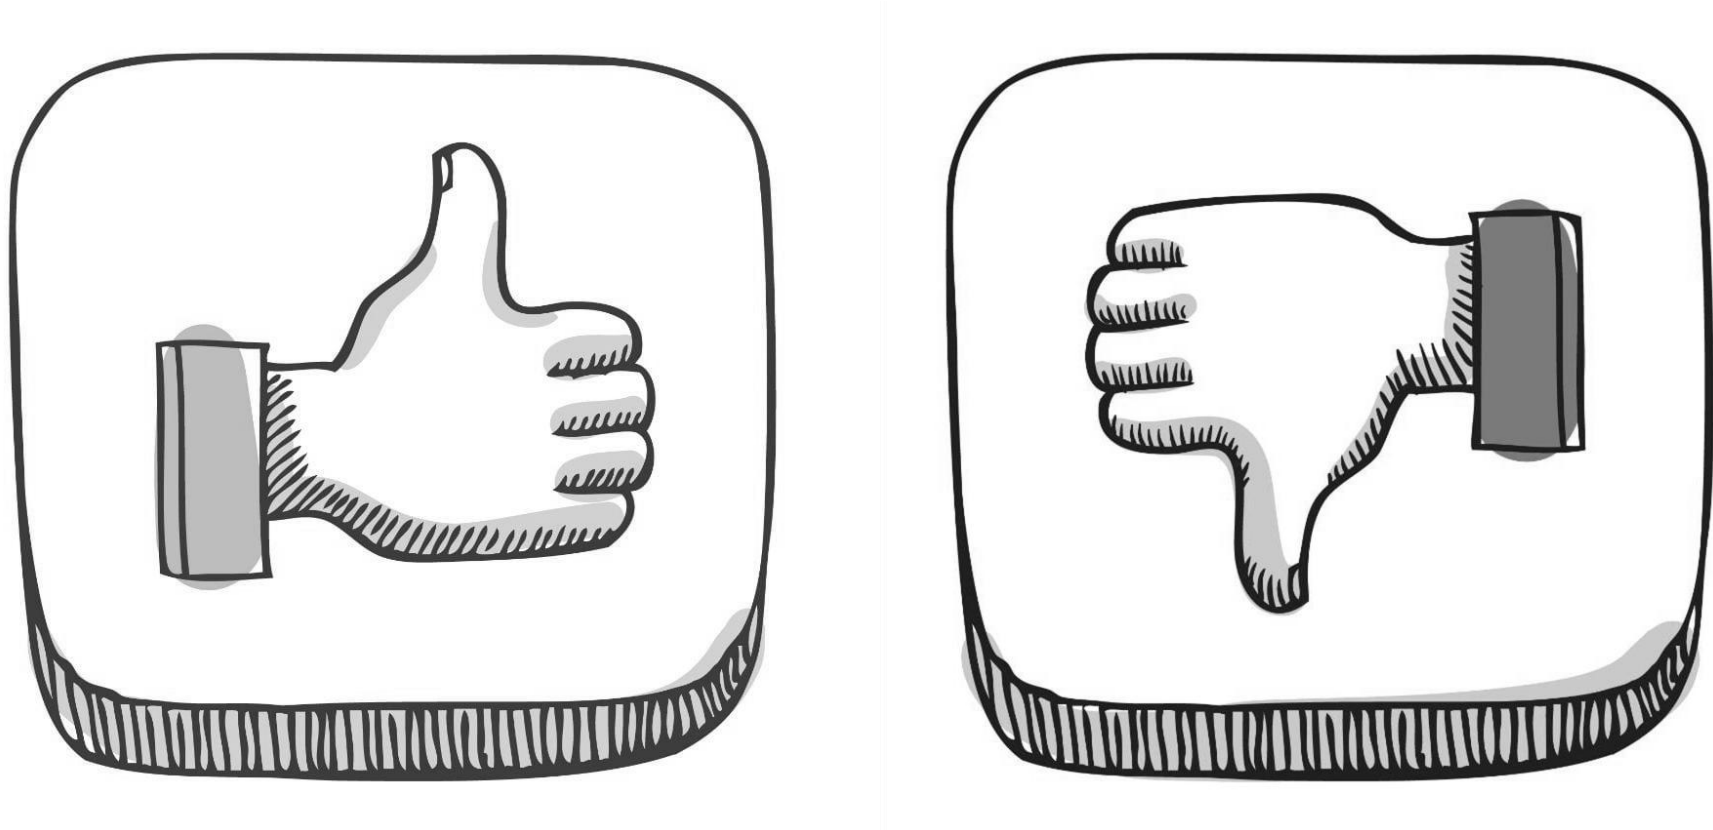

VCAN (\$40-\$50 per year, includes IACA)

- Professionals and academics involved in or interested in the areas of crime and intelligence analysis
 - Professionals shall be employed by law enforcement agencies or supporting corporations in Virginia.
 - Academics shall be employed by or enrolled in an institute of higher learning in Virginia.

MARCAN (\$15-\$40 per year, includes IACA)

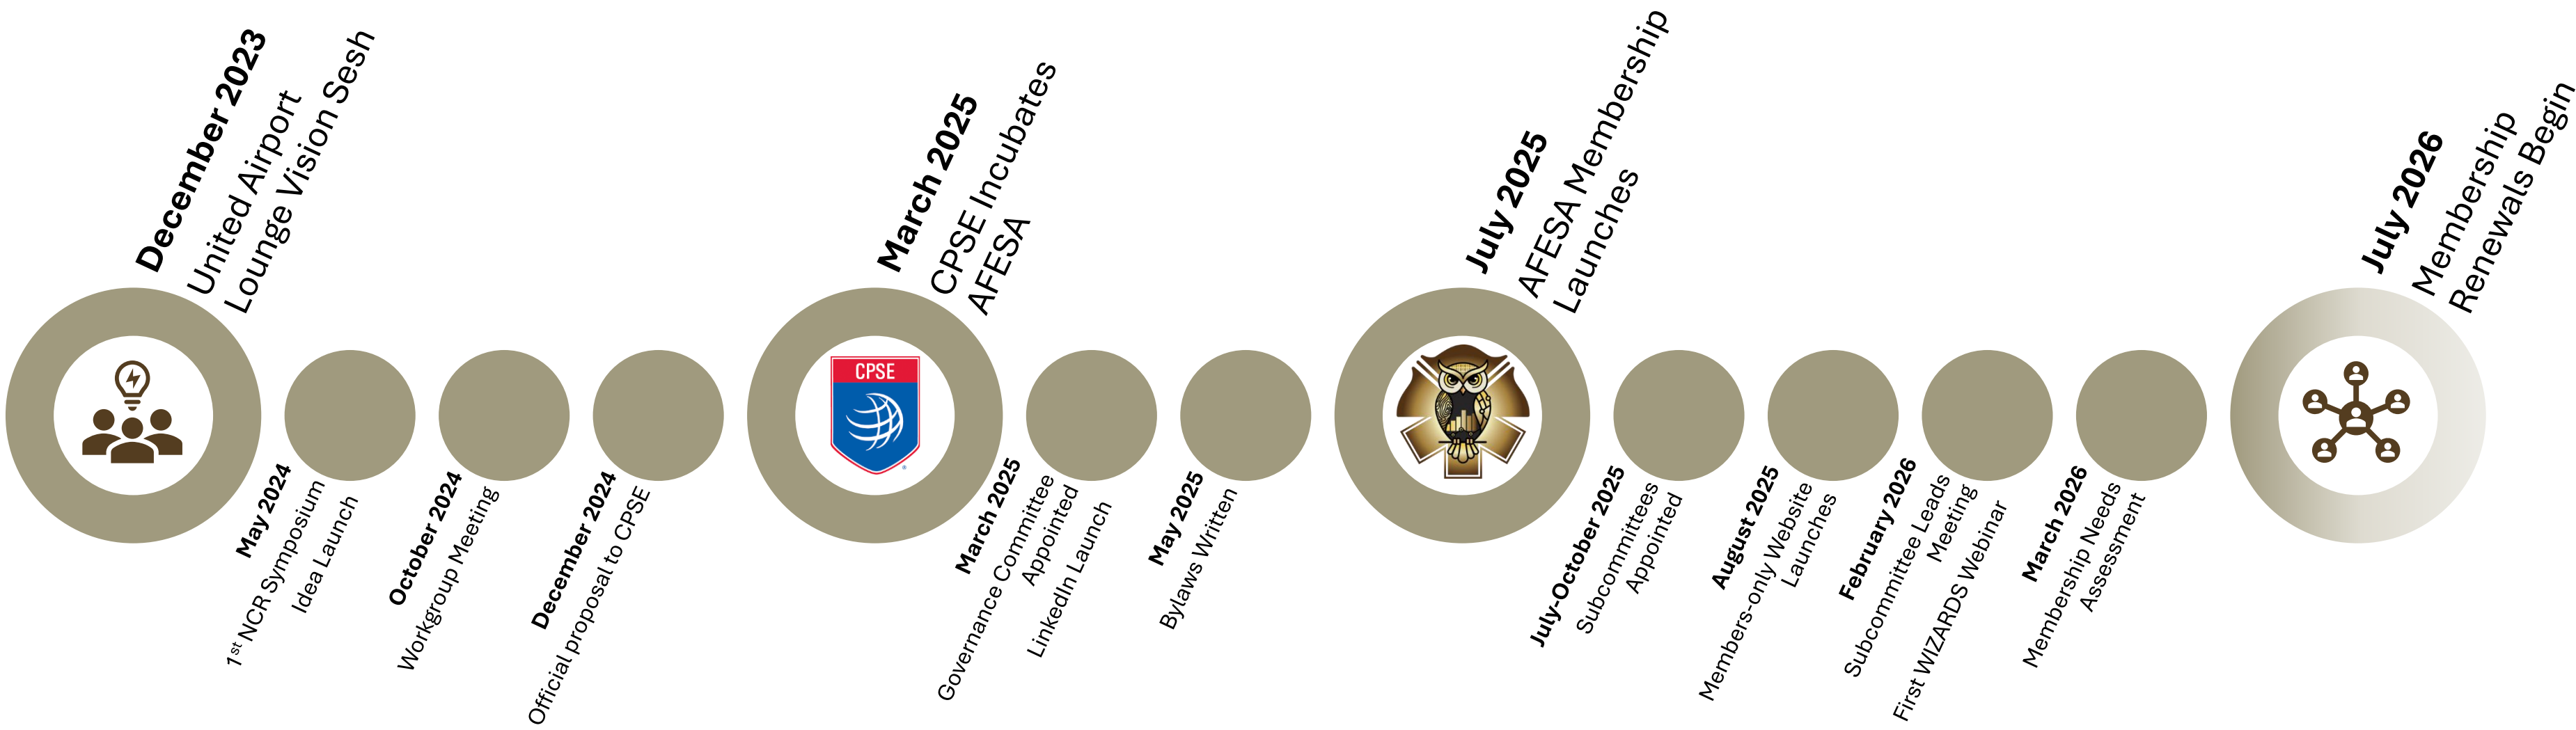

- Any local, state, or federal law enforcement employee.
- MARCAN members are often crime or intelligence analysts but law enforcement employees of any role may join.

What's in it for me? | Analyst Adjacent Personnel & Students

Professional Networking and Collaboration

- Become part of an **international community of analysts** who share your challenges and goals.
- Access **Solutions Café sessions**, forums, and networking opportunities where members exchange ideas, troubleshoot projects, and share best practices.
- Build relationships with peers, mentors, and thought leaders across fire and emergency services agencies.

Education and Skill Development

- Participate in workshops, webinars, and training programs designed to **strengthen analytical competencies** and keep you ahead of emerging trends.
- Engage in a **mentorship program** that supports new analysts and fosters continuous improvement.
- **Improve data literacy** by helping teams understand what data means, how to interpret it, and how it supports effective decision-making in the fire service.
- Stay informed on NFPA 1022 standards and industry best practices through curated resources and expert-led sessions.

Advocacy and Industry Influence

- Join a collective voice advocating for the **recognition and advancement of the analyst profession** within fire and emergency services.
- Contribute to **shaping standards, tools, and strategies** that improve operational effectiveness and public safety.

Exclusive Member Benefits

- Enjoy full access to AFESA's **products, services, and events**, including annual meetings and special functions.
- Opportunities to **serve on committees**, lead subcommittees, and influence the direction of the association.
- Recognition **programs and awards** that celebrate outstanding contributions to the field.

Career Growth and Credentialing Support

- Position yourself for **advancement** by aligning with AFESA's mission and resources.
- Connect with pathways to professional credentials like the **Fire and Emergency Services Analyst (FESA)** designation, reinforcing your expertise and commitment to excellence.

Be the champion for the profession of fire and emergency service analysts to drive individual growth, organizational excellence, and industry advancement.

What's in it for me? | Uniformed Personnel

- How do I hire an analyst?
- How do I know if my analyst is effective?
- What are the pros and cons of various technologies?
- How have other agencies combined data, technology, and analysis to solve the same problems I'm facing?

Professional Networking and Collaboration

- Become part of an **international community of analysts** who share your challenges and goals.
- Access **Solutions Café sessions**, forums, and networking opportunities where members exchange ideas, troubleshoot projects, and share best practices.
- Build relationships with peers, mentors, and thought leaders across fire and emergency services agencies.

Advocacy and Industry Influence

- Join a collective voice advocating for the **recognition and advancement of the analyst profession** within fire and emergency services.
- Contribute to **shaping standards, tools, and strategies** that improve operational effectiveness and public safety.

Exclusive Member Benefits

- Enjoy full access to AFESA's **products, services, and events**, including annual meetings and special functions.
- Opportunities to **serve on committees**, lead subcommittees, and influence the direction of the association.
- Recognition **programs and awards** that celebrate outstanding contributions to the field.

AFESA is more than a membership—it's a commitment to innovation, collaboration, and continuous improvement in the fire and emergency services industry.

Today's [Association of Fire and Emergency Services Analysts #MeetMeMonday #Spotlight](#) introduces Margarita Encinas, Member-at-Large of the Outreach Subcommittee! ...more

AFESA Outreach Sub-Committee Spotlight / *MEMBER-AT-LARGE*

MARGARITA ENCINAS

*Records Management System (RMS) Analyst
Queen Creek Fire and Medical (AZ)*

Bio

I joined the Queen Creek Fire and Medical Department as a Records Management System Analyst in April 2025. Prior to joining the Fire and Medical field, I worked 9 years in Law Enforcement where part of that experience was served as a Crime Intelligence Analyst for the Chandler Police Department and as a Data Analyst for LexisNexis Special Investigations Unit.

My proudest accomplishment is

bringing forward new innovative techniques of analyzing data resulting in justice and crime prevention, while continuing to improve analytical methods for the Fire and Medical field while wearing my jack-of-all trades cap serving other responsibilities.

I found my way to AFESA

I was researching different analytical approaches to better aid my agency and building connections with other Fire and Medical analysts through LinkedIn when I saw a post about AFESA.

Goal for AFESA

My goal for AFESA is to further provide awareness that AFESA is here for other Fire and Medical personnel. I strive to build the connections and to work together as a Team, since this is a National to even International effort in continuing to further aid the community that the Fire and Medical field serves with the mentality of 'Service Above Self'.
